

MIOT Hospitals takes pride
in hosting the

5th AORTIC SUMMIT

Date: 11 - 12 January 2013.

"CONSENSUS UPDATE IN AORTIC SURGERY"

Venue: Retreat Auditorium, MIOT Hospitals, Chennai.

Day -1

11 January 2013

Inauguration 9 - 9.15 am

Coordinator: Prof. S. Muralidharan

Session 1 - Aortic root (9.15 - 11.15am)

Chairpersons: S. Muralidharan, Vijayshankar

Lectures (20 minutes)

- | | |
|--|------------------------------|
| 1. Aortic valve sparing operations with the valsalva prosthesis.
Results of a multicenter study | <i>Ruggero De Paulis</i> |
| 2. Is there an ideal substitute for the aortic valve?
Keep your own valve | <i>Ruggero De Paulis</i> |
| 3. Redo aortic root surgery | <i>Malakh Shrestha</i> |
| 4. Aortic root replacement - Techniques for better outcome | <i>V. V. Bashi</i> |
| 5. Apico Aortic Conduit - COREX Graft | <i>Roberto Di Bartolomeo</i> |

Panel Discussion (20 minutes)

Topic: Aortic valve - When to repair? When to replace?

Moderators: K. Sivakumar, Yugal Mishra

Panelists: Ruggero De Paulis, Malakh Shrestha, Vijayashankar, K. R. Balakrishnan

Session 2 - Live surgery (11.30 - 1.30pm)

Chairpersons: Vivek Jawali, Felix Sridhar, Mandana

Case in the box / Videos (5 minutes)

- | | |
|---|------------------------------|
| 1. Coarctation of Aorta | <i>K. Siva Kumar</i> |
| 2. Noonan's Syndrome – Aortic Root Aneurysm, ASD with
Pectus excavatum | <i>Vijit K. Cherian</i> |
| 3. Retrograde dissection | <i>Roberto Di Bartolomeo</i> |
| 4. Decision making in difficult situations | <i>Chandrasekhar</i> |
| 5. Dissecting Aneurysm: How 320 slice CT and TEE can still fool you | <i>Kannan Nair</i> |

Lunch : 1.30 - 2 pm

Session 3 - Aortic arch / Live cases (2 - 4pm)

Chairpersons: Shiv Choudhry, Anil Jain, Ajay Kaul

Lectures (20 minutes)

- | | |
|---|------------------------------|
| 1. Hybrids of the arch | <i>Thodur Vasudevan</i> |
| 2. Comparison outcomes of hybrid and open Surgery in aortic arch aneurysm- Siriraj experience | <i>Worawong Slisatkorn</i> |
| 3. Classical Elephant trunk | <i>Malakh Shrestha</i> |
| 4. Antegrade brain perfusion in aortic arch surgery | <i>Roberto Di Bartolomeo</i> |
| 5. Extending the proximal neck | <i>Sanjiv Sharma</i> |

Panel Discussion (20 minutes)

Topic: *Hybrid arch repair? Is this the way to go?*

Moderators: M. Unnikrishnan, Chandrasekhar

Panelists: Thodur Vasudevan, Worawong Slisatkorn, Shiv Chowdhry, Malakh Shrestha

Session 4 - Case in the box / Videos (5 minutes) 4.15 - 5.30pm

Chairpersons: K. S. Neelakanthan, S. Rajan

- | | |
|---|------------------------------|
| 1. Failed Stenting for Pseudo Aneurysm of Aorta with Massive Hemoptysis in a 5 Year Old Child | <i>Kannan Nair</i> |
| 2. Endovascular repair in complex aortic aneurysm | <i>Worawong Slisatkorn</i> |
| 3. Posterior aneurysm of the aortic arch | <i>Roberto Di Bartolomeo</i> |
| 4. Type A dissection with severe Left main coronary stenosis causing ACS in post Partum Period | <i>M. Gopal</i> |
| 5. Repair of aortic arch aneurysm associated with type B aortic dissection with Frozen elephant trunk | <i>Roberto Di Bartolomeo</i> |
| 6. Great challenge of residual arch and DTA dissection with impending rupture following open repair of Type I Aortic dissection | <i>M. Unnikrishnan</i> |
| 7. Ruptured false lumen of celiac artery - emergency intervention | <i>K. Murali</i> |
| 8. Giant cell arteritis with aortic root and proximal arch aneurysm after AVR | <i>Kannan Nair</i> |
| 9. Aortic root aneurysm dissecting into interatrial septum in a post RSOV repair and AVR | <i>Vijit K. Cherian</i> |
| 10. Hybrid surgery on TAA | <i>Kannan Nair</i> |

Dinner : Hotel Leela Palace, 8pm

Day -2

12 January 2013

Session 1 - Aortic dissection (9 - 11am)

Chairpersons: Copichand Mannan, Benoy, Seetharam Bhatt

Lectures (20 minutes)

1. Single stage hybrid repair of complex pathologies of the thoracic aorta: no compromise to optimal results *Roberto Di Bartolomeo*
2. One stage treatment of Stanford A aortic dissection with hybrid technique *Chang Qian*
3. Aortic Remodeling following TEVAR for Type B Aortic Dissections: outcomes & considerations for case planning and deployment techniques. *Chun Che Shih*
4. A new method of bypass for redo sternotomy in complex aortic dissections to keep the pipes away from the mediastinum and going on full bypass prior to sternotomy. *Thodur Vasudevan*
5. Minimal access Aortic Surgery / David Procedure. *Malakh Shrestha*
6. Re-operative aortic surgery *Roberto Di Bartolomeo*

Panel Discussion (20 minutes)

Topic: *Type B dissection: Is medical management extinct?
Type A – Can you ignore the residual aorta?*

Moderator: Sanjiv Sharma

Panelists: Chang Qian, Chun Che Shih, Thodur Vasudevan, Malakh Shrestha

Session 2 - Live surgery (11.30 - 1.30pm)

Chairpersons: Worawong, Prashanth, V. M. Kurien

Lectures (20 minutes)

1. Fuwai experience of Type B dissection *Chang Qian*
2. Cannulation techniques in Type A Dissection *Shiv Chowdhry*
3. Management of Type A dissecting aneurysm *Anil Bhan*
4. Suture less valve replacement *Malakh Shrestha*

Case in the box / Videos (5 minutes)

- | | |
|--|--------------------------|
| 1. Intraabdominal hematoma due to jejunal aneurysm in post op Bentall | <i>K. Murali</i> |
| 2. An arch case after failed endoprosthesis | <i>Ruggero De Paulis</i> |
| 3. Intramural hematoma and Penetrating Atherosclerotic Ulcers.
Do we need to treat? | <i>K. Murali</i> |
| 4. Failed myocardial protection during repair of ruptured TAA | <i>Anbarasu</i> |
| 5. Interesting Echo Images in Aortic Surgery | <i>Muthukumar</i> |
| 6. Giant Aneurysm of ascending aorta compressing
structures around aortic root | <i>Vijit K. Cherian</i> |

Lunch : 1.30 - 2 pm

Session 3 - Thoracoabdominal aneurysm (2 - 4pm)

Chairpersons: Santhosh Joseph, Mathew Cherian, V. S. Bedi

Lectures (20 minutes)

- | | |
|--|--|
| 1. Sizing in Aortic Aneurysms. When to intervene? | <i>K. S. Neelakantan</i> |
| 2. Iliac preservation in Aortic Stent Grafting | <i>Benjamin Chua</i> |
| 3. On table fenestration - A new innovative technique | <i>1. George Joseph
2. Rahul Sheth</i> |
| 4. Treating the complex aortic aneurysm with Fenestrated
Stent Grafts and Chimney Stents | <i>Benjamin Chua</i> |
| 5. Total endovascular solution off the shelf (10 min) | <i>Thodur Vasudevan</i> |
| 6. Relevance of open surgery for Thoracoabdominal aneurysm
in the endovascular era (15 min) | <i>M. Unnikrishnan</i> |

Panel Discussion (20 minutes)

Topic: *Is management of TAAA turning towards endovascular route?*

Moderators: V. S. Bedi, Benjamin Chua

Panelists: George Joseph, Rahul Sheth, M. Unnikrishnan, Thodur Vasudevan,

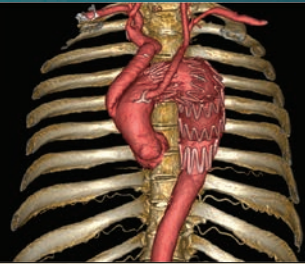

Venue:

Retreat Auditorium,
MIOT Hospitals, Chennai, India.

Date:

11 - 12
January 2013.
